De Klumpu Bali will certainly fulfill your desires by providing you the most welcoming suite that inspired by Balinese structural design. The building uses wood for most of its part and foundation, while the roof is made from hay. This construction is definitely eco-friendly because it will not require electricity to achieve cooler surroundings. All you need to do is to relax and let nature deliver you the pleasure. Take a quick tour and be seduced by their lovely collection of furniture and amenities. Be greeted with the inviting ground floor setting where the creative massage beds and chairs wait for your tired body. An attractive garden view will certainly add a therapeutic essence. Take a graceful step up to the next floor where the spacious veranda lurks and holds the most artistic rattan set where you can enjoy your break overlooking the spectacular view of the green and golden fields.
