SOCIAL RESPONSIBILITY

At Dreams Jade Resort & Spa we have adopted sustainability as a model to guide all of our activities and services. We ensure the conservation and protection of our natural resources and historical-cultural heritage, as well as contribute to the economic and social development of our community. At Dreams Jade Resort & Spa's our priority is to provide quality services that meet the expectations of guests while we build sustainable consumption chains, employ local people, and guaranty work safety and strict compliance with the legal framework based on ethical and equitable practices that promote the physical, emotional and development of all our employees. We care about respecting the cultures and rights of the local community, reducing our carbon footprint, the responsible use of water and energy, the protection of biodiversity, as well as the reduction and management responsible for all our emissions and waste.

Rainforest Alliance Certified™

Since 2015, Dreams Jade has been awarded with the Rainforest Alliance Certified™ mark for achieving significant and measurable sustainability milestones. This verification assures the commitment of Dreams Jade to reduce the impact of its activities on the planet and local communities.

As part of the Rainforest Alliance, Dreams Jade recently implemented an integrated waste management program as a sign of their commitment to reducing, treating and safely disposing of hazardous/non-hazardous wastes.

The first step in their program included an analysis of the existing conditions & the education of their personnel. The hotels worked closely with professionals trained in identifying, handling and sorting hazardous, chemical and solid wastes. Then, they held a series of training events for hotel personnel.

In response to the training events, Dreams Jade has recovered and recycled more than 32 tons of materials that would otherwise have ended up in the municipal landfill. Also, the courses raised awareness to employees regarding hazardous nature of certain wastes and health conditions that could arise without proper in-handling.

Travelife

Dreams Jade has been recognized by Travelife due to the sustainable tourism practices demonstrated since 2015.

Distintivo S

The Ministry of Tourism of Mexico (SECTUR) has awarded Dreams Jade recognition for good environmental and business practices since 2015.

Responsible Waste management

Thanks to the participation of our guests we have reduced the consumption of single use plastic products. Throughout the property, we have waste sorting and recycling containers for ease of use.

MARTI

Since 2009, Dreams Jade has been an active member of the MARTI (Mesoamerican Reef Tourism Initiative), helping to sustain community development and protect the Mesoamerican Reef. Green philosophies include:

- Energy-saving, motion-sensor light switches

- Water-efficient bathroom systems
- Biodegradable bathroom amenities (shampoo, conditioner, hand soap, body wash)
- Grease from kitchen safely discarded through a third-party
- 100% eco-friendly cleaning products
- Discarded paper used for arts & crafts in the Explorer's Club
- Waste recycling program
- Protected mangroves surround resort
- Turtle protection program

Support for our community

To demonstrate a commitment to the community, handmade, local products are sold in shops and stores at Dreams Jade. 100% of proceeds support the local artists. Additionally, clothes, school supplies toys and soaps are donated to local charities.

Save the Children

Guests of Dreams Jade have the unique opportunity to help the children of Quintana Roo. For \$30 USD per person, guests can purchase a special dinner at either Cin Cin or Mercure restaurant and the money raised helps maintain playrooms, prevent childhood obesity and the exploitation of children in Quintana Roo.

Saving Our Sharks

As a standard, our resort restaurants never serve any meals that include any shark species. We continue to support the conservation of sharks with programs like the Saving Our Sharks association through monthly donations to continue research on the state of the wild shark populations.

Reducing Our Carbon Footprint

By the support of the ecological group Sierra Gorda AC. we reduce our carbon footprint with the reforestation of the Sierra Gorda forest in the state of Queretaro which leads to increased oxygen produced by the forest. This is directly managed by the community, generating sources of employment and at the same time, we are offsetting our carbon footprint.

Pools

Dreams Jade recently added a heating system to all pools that allows the water temperature to oscillate between 82.4°F and 84°F (28°-30°C). The heat used to warm the water is generated by the resort's coolers contributing to energy savings in the hotel and reducing our impact on the environment as well as creating a more pleasant pool experience for our guests.
